# ACCESS CONTROL. “AGE VERIFICATON” is a LIE. IT’S ACCESS CONTROL.

**The Parents Decide ACT HR 8250 co sponsored by Elise Stefanik is a way to take choice away from parents because they think you’re too stupid to use low cost and free filters to keep your kids safe. So that the government can control if YOU can use your device and stop you when you call them out on ICE, POLICE BRUTALITY, AND THEIR DIRTY DEALINGS with Child Sex Trafficking.**

THIS REDUCES PARENTAL CHOICE AND AGENCY, it’s a third party getting to decide who can do anything with the critical infrastructure of technology that is key tofunctioning . **Rep Josh Gottheimer and Representative Elise Stefanik are sponsoring the bill.**

This is the crap that ANY ”age verification bill wants! The Age verification in Europe was dangerous for being hacked. Recent hacks showed the SSN and Drivers licences and more. ELISE Stefanik and Gottheimer APPROVES.

It either leaks your SSN and Licenses and face to hackers to use it, OR it restricts in a way that is the latest brick in the death of tech freedom. there's only dangerous in one way or dangerous in another.

**Filters without government intervention exist and are effective. like Open DNS child protection.**

And the ones who want this in ARE FOLLOWING THE FOOTSTEPS OF PEDOPHILES.

A CENTRALIZED AUTHORITY. you don't' have a right to computers and the internet. The can legally cut you off from a car. You have the right to travel but you can't be sold a bike because some government authority says you can't have one because of you were critical of an official. You still have the right to free speech. You just have no access to a forum that matters.
